## Polish Inter-foundation Spaying and Neutering Program

The project that has been created as a result of an agreement between the three pro animal organizations:

- Organizacja do Spraw Ochrony Zwierząt S.O.S.,
  - Towarzystwo Opieki nad Zwierzętami in Poland, departament in Koło - Kolskie Centrum Adopcyjne „Futrzakowo,,
  - Fundacja „Przyjaciele Czterech Łap”
  - Głogowskie Stowarzyszenie Pomocy Zwierzętom AMICUS
- and the Private Veterinary Practice of DVM Daniel Figel from Barlinek.

**The aim of the program is to reduce the homeless animal population in Poland by the regular spaying and neutering of all dogs and cats that are not intended for breeding. This program is ideal for village areas, where the access to veterinary practices is limited.**

**All surgeries will be performed in a mobile veterinary vehicle.**

### Mobile veterinary vehicle

The mobile veterinary vehicle is a fully equipped trailer designed to carry out surgical procedures. The project has been developed based on the original designs of mobile veterinary clinics, produced and widely used in the U.S. Our trailer will have two functional surgery facilities and full veterinary equipment (medical lamps, autoclave, equipment for inhalation anesthesia etc.). With the mobile veterinary vehicle we will be able to perform spaying and neutering in all conditions, in all villages.

MOPSiK project will be performed for a national scale, performing 20-30 spaying/neutering

surgeries every day. The scale of the program fully depends on the amount of money we will be able to collect. Initially we will be happy if we can operate on 80-100 animals in a month.

**The potential capacity of the project is in your hands.**

### First step of the project

The first step of the project is to collect 25 000 euro to purchase the mobile veterinary vehicle. We, the three pro animals organizations, have already signed the contract with the veterinary practice. After we collect 25 000 euro the veterinary practice will buy the veterinary vehicle and the staff will perform for surgeries to the equivalent of 25 000 euro. This equates to not just the investment for the vehicle, **it is investment in surgeries** (about 600 spaying bitches or 900 neutering dogs or 1100 spaying female cats or 1900 neutering male cats).

As we feel the project is so beneficial, the veterinary team decided to start with the surgery immediately. As we have not bought the mobile veterinary vehicle yet, they can only perform a limited amount of surgeries : just in places where the appropriate conditions are met: clean, light rooms, hot water, electricity etc. They are both dependent on the local community and environmental conditions.

Surgeries already performed are:

date	place	Male dogs	Female dogs	Males cats	Females cats
16.10.2011	Koźmin	4	2	2	1
20.11.2011	Jaryszewo	4	5	8	8
04.12.2011	Obrowo	7	4	4	17
11.12.2011	Słopanowo	5	5	7	21
08-12.2011	Barlinek	0	0	25	47
<b>SUM of all surgeries</b>					<b>176</b>

### HOW TO HELP US?

- Please send us the money for spaying and neutering surgeries
- Please send this information to another people, as much as possible
- Please talk to everybody about us and about the necessity of spaying and neutering of dogs and cats

Further details of the project can be found on our website: [www.mopsik.org](http://www.mopsik.org)

If you do wish to make a donation it would be very much appreciated. The bank account details are :
